HELLO!

WE ARE SWS

Half way through the year, and its time for another edition of this successful publication.

For those of you that have been thinking as the year has gone on that it's time to get some of the workshop equipment renewed - now's the time. There's a great deal on **Launch column lifts** on page 5, plus a wide range of other equipment, from an **automatic tyre changer** through to **welders**. At the opposite end of the scale, but equally as important, don't forget to check your stock of disposable seat covers - it's items like this that go a long way towards enhancing your customer's experience.

Very important, and not to be overlooked when you're making a decision on an equipment purchase – an integral part of the SWS experience is the provision of maintenance, training or certification for any of your workshop equipment.

All prices are ex-VAT

Prices shown will apply from 1 August - 30 November 2025 inclusive
