HELLO!

WE ARE SWS

The first edition of The Workshop Essential was so well received it confirmed us in continuing with the format. This is it – the second edition, and there's some great content to check out.

From your basic requirements for **vehicle cleaning**, through the extremely useful **assorted box** range (check them out on pages 16-21 if you haven't come across them previously) to **heavy lifting jacks and axle stands** there's something in here for everyone. Of note are a couple of new lines – an **inspection camera** that links to your phone for those hard-to-reach areas (this one's a real game changer) on page 5, and a good quality **general-purpose spray bottle** on page 10.

With the warmer weather (well, sometimes) and longer days there's never a better time to check out what needs replacing round the workshop – you'll find plenty of inspiration here.

And when you need it – don't forget that nothing has changed with the provision of maintenance, training or certification for any of your workshop equipment. It's an integral part of the SWS experience.

All prices are ex-VAT

Prices shown will apply from 1 April 2025 – 31 July 2025 inclusive

SEARCH WORKSHOP SUPPLIES: BEHIND SOME OF THE BEST WORKSHOPS ACROSS THE COUNTRY

DRAWING ON OVER 50 YEARS OF EXPERIENCE,
SWS HAVE BECOME THE 'GO-TO' SUPPLIER FOR
MANY QUALITY WORKSHOP FIT-OUTS.

WWW.SWSNI.COM

SEARCH WORKSHOP SUPPLIES

The fitting-out of a workshop is not something that is purchased on a weekly, monthly – or even annual basis. It's an investment for now, and for the future. And like any other investment – careful consideration will have been given to it before commitment. Is it safe? Will there be the return that's looked for? Is the provider a 'high performer' with a solid track record?

All very sound questions. And they all need asking – particularly when the fit-out of a workshop is under consideration. SWS are uniquely placed to give solid, honest answers to all these questions. And many more that could be asked. Providing the complete fit-out package from an initial site-appraisal, through installation and onto the training, maintenance and certification – we have the experience, the expertise and the product to ensure there's that healthy return on investment that's looked for.

LOW VISCOSITY SUPER GLUE | SAS

SAS4950

20G

£3.71

€4.53

- General purpose fast curing adhesive
- Bonds metal, rubber and most materials in seconds.
- Low viscosity
- Gap fill 0.1mm cure
- Time 2-40 seconds

ACTIVATOR AEROSOL | SAS

SAS325

200ML

£7.69

€9.38

- Dramatically increases the cure speed of super glue adhesives
- Can help the cure rate when used in large gaps
- Aids bonding on porous materials
- Suitable for use on PVC, plastic, glass & metal

MEDIUM STRENGTH NUT LOCK | SAS

SAS2430

50ML

£7.70

€9.39

- Locks and seals nuts, bolts and screws
- Prevents shock and vibration loosening and leakage on all types of metal fasteners
- Can withstand harsh environments yet is removable with hand tool

HIGH STRENGTH STUD LOCK | SAS

SAS2710

50ML

£6.80

€8.30

- General purpose fast curing adhesive
- Bonds metal, rubber and most materials in seconds.
- Low viscosity
- Gap fill 0.1mm cure
- Time 2-40 seconds

CLEAR INSTANT GASKET | SAS

SAS601

50G

£8.12

€9.91

- Provides high strength retention under cyclic loading
- Retains full strength and does not suffer fatigue under load stress
- Low corrosivity
- Gap fill 0.2mm

HIGH STRENGTH RETAINER | SAS

SAS638

50ML

£7.07

€8.63

- Provides high strength retention under cyclic loading
- Retains full strength and does not suffer fatigue under load stress
- Low corrosivity
- Use for precision fitting components eg gears, pulleys, sleeves, bearings and cylindrical components, which do NOT normally need dismantling
- Gap fill 0.2mm

BRAKE & AIR LINE SEALANT WITH PTFE | SAS

SAS572

50ML

£11.17

€13.63

- Provides high strength retention under cyclic loading
- Retains full strength and does not suffer fatigue under load stress
- Low corrosivity
- Use for precision fitting components eg gears, pulleys, sleeves, bearings and cylindrical components, which do NOT normally need dismantling
- Gap fill 0.2mm

HIGH TEMPERATURE INSTANT GASKET | SAS

SAS591

220ML

£18.95

€23.12

- Black
- For use as a gasket sealant to replace conventional gaskets
- Waterproof formula seals leaks
- Can be used as an adhesive to bond metal, glass and rubber
- Temperature range -40°C up to +240°C (intermittent)
- Excellent water and oil resistance

EXTRA HIGH TEMPERATURE INSTANT GASKET | SAS

SAS592

220ML

£18.95

€23.12

- Red
- Replaces conventional gaskets
- Temperature range -40°C to +350°C (intermittent)
- Compatible with catalytic converters
- Power-can application
