BATTERY TESTER WITH PRINTER

SIN-400.0550

- Battery compatibility: Tests 12V and 24V automotive batteries
- Battery health: Measures voltage, cold cranking amps (CCA), and battery condition
- Starter system: Tests the starter motor performance
- Charging system: Assesses the vehicle's alternator and charging system functionality
- Display: LCD matrix screen for clear, real-time data readout
- Printer: Built-in thermal printer for instant, printed test reports
- CCA Range: 100 to 1700 CCA
- Input Power: DC 12V (via vehicle battery)
- Accuracy: $\pm 0.1V$ for voltage readings, ± 10 CCA for battery conditions
- Dimensions: 295mm x 120mm x 100mm
- Weight: Approximately 900g
